X106™ Evolution by XPAND Vision™ are our new glasses inspired by tradition.

---

## Washable

- Minimal environmental impact.
- Minimal carbon footprint (collection, pickup and disposal).
- No unsightly collection boxes.
- No plastic bags on the floor.
- No record keeping for the Studios.
- Increased consumer confidence when using a sanitized product.

## Accommodating Design

- Non-reflective. Black frame and polarizers minimize reflections.
- Fixed/non-foldable temple piece reduces theft and improves cleaning and sanitation.
- Children nose piece available.
- Low battery indication.

- Excellent 3D performance no matter where in the theatre the viewer is seated.
- Compatible with screens of all sizes and gains.
- Xenon lamp projector compatible.
- Blue phosphor projector compatible.
- 6P laser projector compatible.

## Reliable

- Design based on proven circuitry from other XPANDVISION's 3D glasses models used extensively in the field for many years.
- Meets 3D Industry Standards.
- HFR compliant.

---

## Up to 60% Increase in Battery Life

- Replaceable batteries.
- A lot of effort has been put into making battery replacement easy and straightforward.
- Automatic ON/OFF.
- Up to 400 hours of operational life.

More than 30% lighter than the industry standard X101 3D eyewear.
